- (a) fails to ensure that the plant is so designed and constructed as to be safe and without risks to health when used properly, save where it is not practicable for him to do so;
- (b) fails to carry out or arrange for the carrying out of such testing and examination as may be necessary for the performance of the duty imposed by paragraph (a);
- (c) fails to take such action as is necessary to ensure that there is available in connection with the use of the plant at the workplace adequate information about the use for which it is designed and has been tested, and about any conditions necessary to ensure that when put to that use it will be without risks to the health and safety of any person;

commits an offence against this Act".

Payment of Design Registration Fee is acknowledged.

Yours faithfully
