**EAGLE FARM QLD 4009**

Dear Mr Elvery

**Re: Mobile Pick and Carry Crane, Model Terex MAC 25  
Plant Design Registration Number Q16799**

Thank you for your letter dated 6 August 2014 and notification of the following:

- ◆ Upgrade to MAC 25 model crane
- ◆ Crane is now a Series 4 MAC 25, model MAC 25-4
- ◆ New Load Moment indicator (LMI) system. This system more accurately determines rated capacity when the crane is tilted sideways
- ◆ Alterations to Cab:
  - Cab is now 2 door
  - A number of interior improvements – GPS, drawer type fridge, USB charge points and foot pedals repositioned to improve driver comfort
  - Engine fan updated to 2-speed fan. Fan reduces noise levels and improves fuel consumption
  - Upgraded electrical harness
  - Transmission controller updated to next generation controller – referred to by transmission manufacturer as “Gen5”
  - Crane’s maximum rated capacity is unchanged.

Please be advised that our records have been updated to reflect the above information and drawing numbers T139187 Rev 0, T138758 Rev C and Rated Capacity Manual placed on file.

Yours sincerely

MICHAEL CHAN  
**Director and Chief Safety Engineer  
Workplace Health and Safety Queensland**
