

Terex AT 22 Mobile Crane Gross Vehicle Mass (GVM) Limits

To Whom It May Concern;

The Terex AT 22 has the following specifications relating to suspension and axles:

Nominal production tare weight:

Front Axle:	8000 kg
Rear Axle:	12000 kg
Total:	20000 kg

The suspension and driveline components used in the design have rated capacities to allow for laden weights of:

Front Axle:	10000 kg
Rear Axle:	12000 kg
Total:	22000 kg

Hence, the allowable Gross Vehicle Mass for the AT 22 is:

GVM	22000 kg	This is intended to allow for rigging equipment and other crane options
-----	-----------------	---

Note: Before using your crane to these limits on the road, please check that your excess mass permit allows for this – some additional charges may be incurred.

Should you require any further information, please don't hesitate to contact us.

Kind Regards
