JOHNSON ARABIA ADDS TEREX® AC 350/6 ALL TERRAIN CRANE

ZWEIBRÜCKEN, April 1st, 2016 – Johnson Arabia LLC is expanding its fleet and service offering with the new Terex® AC 350/6 all terrain crane, the most compact 6-axle all terrain crane in the 350-tonne capacity class on the market. Based in Dubai, UAE, Johnson Arabia, the market leader in the region, offers cost-efficient lift engineering solutions for the petrochemical, civil engineering, construction, industrial, utilities, aviation and marine industries. The new Terex all terrain crane will join a fleet of approximately 250 mobile cranes and provide the company even more versatility.

“We were looking for a powerful crane in a compact size, and the AC 350/6 was the best model on the market,” said Ajay D’Souza of Johnson Arabia. “The unit has several features that will reduce setup time, make rigging easier and provide jobsite safety for our team. We’re looking forward to putting it to work.”

The company’s new AC 350/6 crane features a patented luffing jib rigging system that provides fast, easy rigging with safety in mind. And with a maximum telescopic boom length of up to 64 meters for an impressively compact maximum system length of 125.7 meters, this powerful, 6-axle crane can out-lift larger cranes in the 400-tonne capacity class in a number of jobsite situations.

About Johnson Arabia LLC

Established in 1999, Johnson Arabia is a mobile crane hire company based in the United Arab Emirates, which offers lift engineering solutions to a wide range of industries. From its initial location in Dubai, the company has expanded operations in Oman, Saudi Arabia, Qatar, Kuwait and Bahrain
