CONCRETE MIXER TRUCKS - FRONT DISCHARGE REPLACEMENT PARTS GUIDE

★ Fort Wayne

★ Distribution Centers

Three convenient locations to service all your mixer replacement part needs.

TEREX®

(800) 433-6691

*Locations noted above are not all inclusive and are effective as of 2010.

This replacement parts guide for front discharge concrete mixer truck parts is not all-inclusive for every equipment model available. Every effort has been made to capture the parts for models still in operation, regardless of current production status. Images are not scaled to size.

If you need additional reference guides, or if you have questions or comments, please provide your pertinent mailing information (company name / address / phone / fax / email), using any of the following:

Phone: (800) 433-6691

Fax: (260) 497-0939
Attn: Parts Literature & Support

See Photos on Next Page.

Tools and supplies required:

- Seals and drivers listed above (available from the vehicle manufacturer)
- Heavy hammer or beater bar
- 1 1/4 -12 nylon lock nut
- 1 13/16 socket with 3/4" Drive
- Impact Gun with 3/4" that can produce 600 lbft of torque
- Torque wrench that can produce 600 lbft of torque
- Seal puller
- Denatured Alcohol or Mineral Spirits
- Scraper
- Standard Automotive Grease
- RTV (Silicone) Sealant

DRUM REPLACEMENT SHEET

TEREX® 800.433.6691

**TEREX®**

Front and Rear Discharge Mixer Replacement Drums

Front Discharge Drum

Rear Discharge Drum

Terex® mixer drums are built with an abrasion resistant (AR) material that provides longer lasting performance. Terex® Front and Rear Discharge drums and fins are available in:

- 3/16-inch AR 230,
- 3/16-inch AR 400 Brinell, and
- 1/4-inch AR 230.

The standard Rear Discharge drum is made with AR 230 - 1/4 mixing fins.

Also available on both the Front Discharge and Rear Discharge is an optional 1/8-inch AR 450 drum with 3/16-inch AR 230 fins.

The weight advantage of this drum is 1,000 pounds less, allowing for more payload while providing superior wear and durability.

As an added service, our Terex service technicians are available to perform measuring, thickness testing, and installations at your site. Fin kits to rebuild your drum are available for customer installation, or custom installation by Terex personnel, and are size specific.

The best way to protect your investment and keep costs down is to use genuine OEM Terex replacement parts manufactured to your mixer's exact specifications to maximize productivity. For more information or to place an order, call toll free (800) 433-6691 or fax (260) 497-0939.
