Sidewalk Paver

The Bid-Well Sidewalk Paver is a great compliment to the Bid-Well Roller Paver series. The Bid-Well Sidewalk Paver allows you to finish at-grade pedestrian walkways separated by a median on your bridge deck projects. Available for the Bid-Well 4800 and 3600 pavers, the Bid-Well Sidewalk Paver easily installs in the carriage rail of your Bid-Well Paver with no extra tools or brackets to add to your paver. With adjustable height, several different length paving rollers, and the ability to be skewed, the Bid-Well Sidewalk Paver provides a solution to your at-grade sidewalk paving needs. For more information contact your Bid-Well Regional Sales Manager.

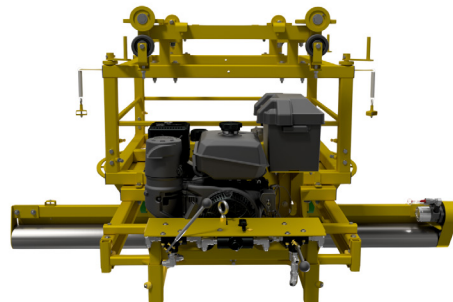

Paving Roller

Bid-Well offers paving roller widths from 5ft to 12ft to meet your project needs. The 6 inch paving drum has a user controlled rotation speed and forward/reverse travel. The paving roller will screed your at-grade sidewalk areas to a desired grade while the Bid-Well Roller Paver finished the roadway portion on the

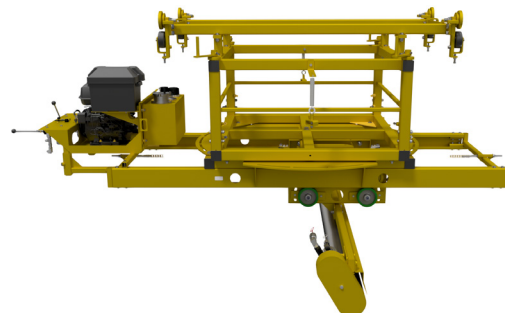

Self-Contained Unit

Powered by a 14hp Kohler engine, the Bid-Well Sidewalk Paver is a self-contained unit and does not require any additional pumps or plumbing to your Bid-Well Paver.

Flexibility

The Bid-Well Sidewalk Paver can be moved between pavers in your fleet and even between Bid-Well 4800 and 3600 pavers with the appropriate hanger frame for each model. It is also able to be skewed to meet the needs of skewed deck projects.
