

## Terex|Franna MAC25 Gross Vehicle Mass (GVM) Limits

To Whom It May Concern;

The Terex|Franna MAC25 has the following specifications relating to suspension and axles:

Nominal production tare weight (counterweight stowed on front as per travel configuration):

Front Axle:	11900 kg
Rear Axle:	12000 kg
Total:	23900 kg

Suspension Rating:

Front Axle:	12500 kg
Rear Axle:	12500 kg
Total:	25000 kg

Hence, the allowable Gross Vehicle Mass (GVM) is **25000 kg**. This is intended to allow for rigging equipment and other crane options.

*Note:* Before using your crane to these limits on the road, please check that your excess mass permit allows for this – some additional charges may be incurred.

Should you require any further information, please don't hesitate to contact us.

Best Regards,
