

360° Camera System

//// Providing operators with the safety of a surround view for the Franna AT 40. Offering a real-time 360° view of the crane, this option significantly enhances operator visibility by eliminating blind spots.

Key benefits:

- ▶ 10" screen with 4 cameras
- ▶ Can provide a 360° view or 270° view as required
- ▶ 360° view and 4 camera views can be cycled via dedicated button
- ▶ Additional inputs available to add 3 more cameras
- ▶ Default view is customisable
- ▶ Easily retrofittable to existing machines
