

I-140

The Terex Finlay I-140 shapes the future through innovation. This new generation impact crusher with redefined style and advanced technological design gives improved material flow and production capabilities in quarrying, mining, demolition and recycling applications. Incorporating the a Terex® CR032 impact chamber with direct drive and advanced electronic control system the machine provides operators with high material reduction ratios and produces a consistent product shape.

The high productivity, ease of maintenance and operation makes the machine an ideal solution for large scale producers and contact crushing operators.

KEY FEATURES

- The ease of material flow through the machine has greatly improved. With each component increasing in width as the material moves through the machine.
- Fully hydraulic assisted apron setting features makes adjustment of the aprons convenient and efficient.
- Heavy duty vibrating feeder (VGF) with integral pre-screen removes dirt fines and sizes bypass material for reprocessing.
- Optional under crusher vibratory plate feeder with wear resistant liners aids material discharge flow.

TRANSPORT & WORKING

18.43M (60' 47")

17.8M (58' 5")

3M (9' 1")

7.36M (24' 2")
