

C-1554 Case Study

STRONG **HERITAGE**, STRONG **FUTURE**

C-1554 Case Study

Machine: **C-1554**

Location: Co. Meath, Ireland

Material type: Limestone

Machine spec: CSS = 17mm

Medium-Medium Liner configuration

Engine speed: 2100 RPM

Chamber speed: 258 RPM

Output: 0-34mm

Average 315 mtpH (Belt-Way display)

Average Fuel Consumption

Engine: CAT C18

Engine Load: 59-67%

Litres per Hour: 89 l/h (23 US gal/hr)

Note – Fuel consumption figures quoted are the actual working fuel consumption and not the daily average

Feed Material (for Jaw)

Feed Material (entering cone)

Output Material
