

2024 Terex Utilities Factory Service Training

We are pleased to announce the 2024 Terex Utilities Factory Service training school that will be held in Watertown, SD beginning Tuesday June 11th, 2024 at 7:30 AM and ending Thursday June 13th (3 Full Days). Certificates will be handed out at noon on Thursday. An optional evening meal will be available on Thursday night for those staying in town. Each day the classes will be done by 5:00pm.

This year's classes will be held at the Lake Area Technical College (LATC) facility located at 1226 Arrow Ave NE. Attendees are asked to meet at the MEC building at 7:30 AM Tuesday for orientation. Classes will start immediately following orientation. Terex signs and equipment will designate the parking and instruction areas.

The registration fee for this class is \$1200.00 per trainee. The courses offered will cover Digger Derricks and Aerial Devices. **Cost does not include any transportation or hotel accommodations.**

Class sizes will be limited to 48 enrollees and will be filled on a first come, first serve basis. Any applicants received after the first 48 will be placed on a waiting list and notified if a spot opens up. In past years this school has filled up extremely quickly, please reserve your seat as soon as possible. **No registrations will be accepted after 5/3/2024.**

Confirmations, in the form of a purchase order will reserve a seat in the class along with a completed enrollment form for the attendee(s). **No attendees will be registered without a Purchase Order, Billing will occur after the service school is complete.** Multiple attendees can be paid for with one purchase order.

To verify open seating and register participants, visit <https://terex.com/utilities/en/support/training/service-training/service-school>.

Cancellations on or after May 3rd, 2024 will result in a full charge for all reserved seats. Substitutions for reserved seats are allowed.

Lunch and a snack at break time will be provided.

Course Outline:

This year the school will be set up with 6 Stations, with most courses using an extensive "Hands On" approach. The attendees will participate in activities at 2 stations per day. Each station may incorporate equipment, hand-outs, and/or training aids to educate participants in maintenance, trouble shooting and repair procedures for current models of Digger Derricks and Aerial Devices. The 6 stations will consist of the following (subject to change):

- TM Series
- Chassis Controllers, Schematics, Troubleshooting, and Online Tools
- Maintenance and Inspections
- Digger Derrick – HOP, Valves, Pumps and Repairs
- Digger Derrick Planetary Rotation Systems and Pilot Controls
- Leveling Systems and Plant Tours

Work attire, safety glasses, and steel toe work shoes are required. Attendees without the proper PPE will not be allowed to attend the training. Some stations will be outside, rain gear may be required if inclement weather occurs.

Should you have any questions or comments concerning this training event, please contact the Terex Utilities Service Department at 1-844-Terex4U (1-844-837-3948)

The training will be held at Lake Area Technical Institute located at 1226 Arrow Ave NE, Watertown, SD 57201.

Any questions on this please contact Terex Utilities Service Department at 1-844-Terex4U (1-844-837-3948) or email Utilities.Service@terex.com.
