

# MT31 TRACKED CONVEYOR

## FEATURES & BENEFITS

The MDS MT31 stockpiler, builds on the hugely successful MDS MT21 & MT24 conveyors. The extra length of conveyor, and increased power, allows for maximum mobility and flexibility, reducing or eliminating the use of wheeled loaders on site. The conveyor can cope with all applications, from light duty screened material, through to jaw applications. The Conveyor is 100ft long and still retains the ability to be transported worldwide in a 40ft container.
